

SAFE PARKING

WHAT IS SAFE PARKING?

The Safe Parking program gives people living in their cars, vans, and RVs/campers a safe and legal place to park and sleep at night.

WHY DO SAFE PARKING PROGRAMS EXIST?

According to the 2019 Greater Los Angeles Homelessness Count, there are **16,525 people living in their cars, vans, or RVs/campers** on any given night in Los Angeles County, which is 37% of all unsheltered people.

People living in their vehicles are often unaware of safe places to rest at night and often lack access to the homeless services delivery system and other community resources. Safe Parking programs can help fill this important gap and need.

Safe Parking is an approved strategy to address homelessness under the City of Los Angeles' Enhanced Comprehensive Homeless Strategy. Funding for the Safe Parking programs is administered by the Los Angeles Homeless Services Authority (LAHSA). Funding was made possible through the City and County of Los Angeles, and the State of California.

WHO CAN PARTICIPATE IN SAFE PARKING PROGRAMS?

The Safe Parking program is open to the following people:

- Those who are living in their cars, vans, or RVs/campers and have an operable vehicle. Since our Safe Parking programs are not 24 hours, participants must leave the lot by a certain time each morning.
- Those who have a valid driver's license. If someone has lost their driver's license, Safe Parking providers may be able to help pay for a replacement. Contact your Safe Parking provider to confirm.

WHAT SERVICES DO SAFE PARKING PROGRAMS PROVIDE?

- Safely park and rest their vehicle in a parking lot. On-site security is available at all hours of the program.
- Access and use a restroom and handwashing station on-site
- Get referrals to community resources such as housing, medical, benefits, education, employment.

Some programs may also have limited financial assistance available for participants. Site amenities vary according to each site. Please see site information on back.
